What's Inside Kleem Organics?

Peptides

This is where peptides come into action. Peptides are the building blocks of protein, and they are easily absorbed into the deeper layers of skin due to their smaller size.

Matrikines are peptides that regulate cell activities through cell signaling. The two matrikines in Matrixyl 3000 work synergistically to restore and maintain the skin's youthful appearance by signaling to cells to produce more collagen.

If you're looking for a peptide serum, we recommend Carrot & Stick The Repair Serum. It contains 7 plant-based peptides to promote plumper and smoother-looking skin. It also has skin-loving ingredients like hyaluronic acid and niacinamide.

Use retinoids at night. We recommend this retinoid oil serum. It contains Hydroxypinacolone Retinoate, an ingredient that provides similar benefits with less irritation.

However, it's also important to note that the changing price of the product may play a role in consumer reviews. For example, the official distribution for this serum is conducted through Amazon.com (it's not available on the manufacturer's website). The price is \$34.99. Because it is not possible to tell when this price reduction occurred, the consumer must keep in mind that some negative Kleem Organics reviews may have been written by consumers who paid full price for the product, and may have left better reviews if they purchased it on sale.
