## Authenticate With Real Experts

The quilted material in an authentic Chanel handbag is puffier than the fake one, which is pretty flat.

Apart from the leather, diamond shapes on the replica are too large, when they are supposed to be the same size as shown on the first picture.

## Checking the Measurements

Let's compare Chanel Classic bag fake VS real by checking the dimensions.

The difference also shows in the softness of the original leather, while the fake material seems to be solid.
