Betting odds have always lined newspapers, and now they've started to become

popularized in electronic applications, too, as the presence of mobile betting

expands.

For American odds, which are the default options at United States sportsbooks according

to Action Network, there's a '+' or '-' symbol in

front of a three-digit number.

The '-' sign in front of a number indicates that a bet has been placed

on the favorite, and the three digits that follow, similar to the bets on the underdog,

signal how much someone would make if they bet \$100.

If every possible bet that people could wager on is covered, the hope would be

that the books eventually balance out between who won and who lost their bets.

Odds are heavily influenced by statistical and analytical research too, considering

past outcomes given certain opponents and situations.

In bets for the underdog, though, the fraction is flipped.
