If you want to maximize the value of SugarHouse's welcome bonus, try one of our strategies.

The first thing you must do to maximize the value of this bonus is to deposit the maximum amount that you'll get matched, which is \$250.

Make sure to deposit the whole \$250 at once on your very first deposit, otherwise your bonus will only be whatever amount you deposit first.

By depositing \$250 for your first deposit, you'll have \$500 in your bankroll to use toward your wagering requirements.

If you hit, you win \$500, bringing your bankroll up to \$750, and meeting your 1x wagering requirement because you wagered the whole bonus amount.

The highest RTP SugarHouse allows you to play with this bonus is 99.

That means by betting the highest amount on these games means you'll have to pull 5 times to meet your wagering requirements.

Going with European Roulette is faster, but if you're a slots fan or want to mitigate risk, head to a game like Mega Joker (99% RTP) or Blood Suckers (98% ) Tj T\* BT
