At first glance, it might seem as if this version of the game is simply not as f

avourable for the players as other versions of Blackjack.

Though the basic payoffs are the same, there are several rules which seem to make it more difficult to win.

But apparently, European Blackjack really is just as fair as any other version.

In European Blackjack, there are several restrictions placed on splitting cards

and you are limited to three splits.

There is also no hole card for the Dealer, which means if his first card is either a ten or an Ace, you are playing in the dark as to whether he has Blackjack.F

But in European Blackjack, the Dealer always stands on all totals of 17 or higher.

This option can allow the player to limit his losses when he is in an apparently difficult place in a hand.

When there are six or eight decks being used, you could discover that there are literally dozens of high or low cards stuck together in the deck.
