How to Unmute on Facebook

If your YouTube channel is under your personal name, you may have to jump through a few hoops to change it to your business or brand name. Personal YouTube channels are tied to your Google Plus name. The only way to remove your name from the channel is to unlink it from your Google Plus profile, and the only way to do this is by asking YouTube's technical team for help. YouTube provides a special form you can use to make the request (link in Resources). As an alternative, you can set up a new YouTube channel under your business name.
