Whether you've already met Larry the Lobster in the original Lobstermania slot, or not, "Lucky Larry's Lobstermania 2", should have you snapping at the bit for the latest installment of fun lobster action.

You can win prizes for helping Larry keep his favourite bay in order, and he'll reward you handsomely for spotting any problems with the local buoys, ships, lighthouses or boatyards.

However, help him keep his bay in order and you'll win up to 300 coins for boatyards and lighthouses, and up to 400 coins for ships and buoys.

Loveable Larry just loves to hand-out (or claw-out) lots of bonuses too, and he'll happily go wild to substitute for lots of other symbols to create many more winning pay-lines.

If that happens when there is a multiplier on reel 3 you may also win between 3x and 5x the original prize value.

Also watch out for the Jackpot Scatter Symbols which can also act as Wilds, however when they appear on 3 to 5 consecutive reels they will also award a jackpot.

3 symbols awards a Light Trap of 2,500 coins, 4 symbols awards a Full Trap of 10,000 coins, and 5 symbols awards the Mother Lode of 50,000 coins.

However, be aware this game is infamous for its high volatility, so if you prefer frequent small wins over the chance for infrequent big wins, you may want to try a different game.
