Amazon Associates is the name of Amazon's affiliate program. It's easily one of the most popular programs because it's incredibly easy to use, is connected to one of the largest marketplaces in the world, and the conversion rates on Amazon links are very high.

Are Affiliate Links Allowed On Facebook With No Disclosure?

However, other affiliate networks might allow you to promote your links via Facebook Ads. Facebook does allow the practice if your affiliate links fall within its advertising guidelines, which typically does not allow promotion of illegal, adult, and unsafe products.

Within the text area of your post, place your affiliate links to the different products you used or talked about in your video. You can also do this in a comment, which may help your post engagement and reach.

3. Promote Your Business Posts On Your Personal Page

If you aren't interested in building your own site at this time, you can work around this problem by publishing content that includes affiliate links on established content sites such as Medium, YouTube, and LinkedIn. When publishing to these sites, it's important to make sure that you are following all advertising rules.

Yes! As mentioned above, it is okay and possible to do Amazon Affiliate marketing on Facebook as long as it is done through pages, groups, and other organic means. Facebook does not allow Amazon Affiliate links to be run directly as ads on Facebook. If you are looking to do ads, you will need to link to a page that promotes your link to market the links indirectly.
