Handicap betting example: How does it work?

To better explain handicap betting, we use the example of an English Premier League soccer match.

50.

The odds suggest an Arsenal victory is the most likely outcome.

If the bookie then handicaps Arsenal 1 goal, the market would look like this:  
20 (-1.) Tj T\* BT /F1 12 Tf 50 608 Td (0), Draw \$3.
