However, that's not to say that it isn't done on a daily basis and is a huge problem for Amazon. Just search Facebook groups for "Amazon product testers" or similar terms, join some of those groups and see how many thousands of products per day are given away in exchange for reviews, mostly from Chinese sellers.

At the current rate of abuse, and given the fact that this has been going on quite heavily since the migration of Chinese sellers to Amazon

With any online retailer those reviews by buyers are core to the business. Paid

for "reviews" subvert the review system and, if unchecked would make them useless not only to Amazon but to the seller.

PayPal can reverse transactions as the accounts to receive funds are tied to a bank account.

He probably doesn't even have a paypal account or it is tied to a bank account to receive such amount of money. This is why he doesn't want

to be paid via PayPal.

With that, the benefits you receive may or may not be taxable based on your other

income. For example, let's say that you are a single filer that received \$

20,000 in Social Security benefits. Additionally, you earned \$20,000 at a part-time

job. When you run the numbers, 50% of your benefits plus your other income would be \$30,000. With that, Uncle Sam would require you to pay federal taxes on

a portion of your Social Security benefits.

How Will Your Social Security Be Taxed?

If a portion of your Social Security benefit is taxable, there's no avoiding

the federal income tax. But you won't pay taxes based on your entire Social

Security benefit. Instead, you will pay taxes on 50% or 85% of your total Social

Security amount.
