Now, it is being projected that North Carolina online sports betting will launch in January 2024.

The Tar Heel State already has in-person sports betting locations, so fans may already be familiar with common sports betting terms.

Outright: This user-friendly betting style requires you to simply wager on whatever side you think will win an entire sporting event.

If Tampa Bay is listed as a -200 favorite against Houston, that means that you'd need to bet \$200 on Tampa Bay to return \$100 on that side to win.

If Houston is the +200 underdog, you could win \$200 on a \$100 bet if that side wins the game.

Futures: You aren't limited to wagering on games happening right now.

In most games, the dealer must Hit on a total of 16 or lower and Stand on a total of 17 or higher.

When the dealer gets to the point where he must Stand, his hand and yours will be compared and the better hand will win.

Games that allow the player to Stand on a soft 17 have a bigger house edge.

Vast choice of games and tables : you won't have to wait to play whichever game you want to play.

If you're not aiming for higher chances of winning, but focus on the high adrenaline instead, then the blackjack side bets are the right choice for you.

Always Stand when you have a hard 17 or higher.

Hit on a hard 12 unless the dealer's up-card is a 5 or 6.

How to Understand American Odds

American odds work a little differently to the others.

The odds for a favorite team to win the game are usually listed with a - sign, which indicates the amount a bettor would need to bet to win \$100.

This shows how much a bettor would win if they staked \$100.

The Miami Dolphins are favorites to win this Sunday's game at -110 odds.

So that's what happens when you bet on favorites using American odds.

In another football game on that Sunday, the Buffalo Bills are the underdogs to win at +240 odds.

You place a \$100 bet, which will yield \$240 in winnings if successful!
